## Message from our team

The start of the year saw the whole country in a state of utter shock and dismay with the second wave of Coronavirus. I am proud to say that our team members were relentlessly working to provide oxygen cylinders, other amenities, or online help to patients across the country - Gurugram, Patna, Gorakhpur, Uttarakhand - cases from various regions were handled.

Program operations were swiftly adapted through online and in-person mediums. The majority of our team was working from the office and supporting the community members. Vaccination registrations and camps were the highlights of the month in May and June. We were able to vaccinate 11,490 individuals by organizing seven camps and volunteering in one. The state of vaccinations was critical, for most of our community members, their jobs were at stake.

The most fascinating aspect of our organization is the level of connection with the community. When I joined Agrasar, a year and a half back, and started to talk to people from the community, they would be completely open with me about all their issues and problems, just because I was somebody who was working at Agrasar. The amount of trust the team has been able to build over the years with community members is incredible.

### **Established a new center in Gandhinagar, Gurugram supported by Azim Premji Philanthropic Initiatives (APPI)**

We opened a new Agrasar Pravasi center in September 2021 in Gandhinagar, a colony in Old Gurugram near Khandsa. It is a huge cluster of migrants with colonies named Gandhinagar, Shivji Park, Shakti Park, and many more.

Whenever we move around in the community, one or the other person says “Aake chai-pakoda toh khalo” (have some tea and snacks with us); we get invited to birthday parties of kids and are recipients of some great handmade art and homemade remedies for sore throats. I’m grateful for the bond and love that members of the community have for us.

In the past year, we have also worked on laying out end-to-end processes and developed well-grounded mechanisms and a strong Monitoring & Evaluation Framework for the Agrasar Pravasi program. This has made it tremendously easy to facilitate a new team for new centres and hence, we are looking forward to scale up our program.

I hereby invite you to find out more about Agrasar’s journey through 2021 - our progress, challenges and plans for the future.

Arham Sayeed Quadri,  
Program Manager, Agrasar Pravasi

# ABOUT AGRASAR

## Our Vision and Mission

Agrasar is a social impact organization working with marginalised communities in India since 2010. We envision a caring and compassionate society with opportunities for growth and development for all to live a meaningful and enriching life. Our operations are centered in Gurugram and are spreading out to nearby regions directly or in partnership with community-based organizations.

Agrasar is on a mission to enable equitable access to safe and enriching education for children, facilitating gainful and progressive employment for "migrant workers", and basic rights and entitlements for their families. We believe ourselves to be an integral part of the community we work with. We learn each time we interact with our primary stakeholders and the varied people and institutions we come across.

Hence, our tagline -

## Progressing with the Community

### Our Approach

Agrasar is working to promote sustainable socio-economic development of marginalised communities by helping them build capacities and realise their true potential. We use a culturally sensitive approach to engage with the communities in an empathic and respectful way. Instead of running programs *for* them, our work is embedded *within* the community, enabling us to learn from them and *progress with them*. Over the years, we have established trusted relationships with "our" communities, making us part of them as well as their change journey.

# ABOUT AGRASAR

## Our Communities

Agrasar works with people who have migrated from other states to the semi-urban areas in Gurugram. Not only do these people struggle with poor economic prospects and the housing, sanitary, and health issues that come with it, but also with social stigma and prejudice against the "other".

Lack of education and little access to public services add to their plight. "Migrant" communities, in particular the children, belong to the most vulnerable communities in India, but at the same time have the highest motivation to improve their lives. Their dedication towards creating a better future is not only admirable but an everyday inspiration for us.

## Our Team

Agrasar stands for Oneness, Compassion and Freedom for us and everyone. We are an organisation of around 30 members now, that not only works in local communities but also recruits many of its own team members from the same. Our team is a melting pot of different backgrounds, nationalities, educational and professional experiences.

This brings varied perspectives to the problems we are trying to solve as well as paradigm shifts to move towards a more equitable and just society. Thus, we strive towards internalising our vision and mission by bringing the strengths of each team member to build synergies in our operations, while contributing to each other's learning journeys.

# INTRODUCTION

During the past year, as we survived through the devastating effects of the Covid-19 pandemic, Agrasar as an organization evolved. We made dynamic changes to the way our organization and programs work by modifying our goals according to the emerging needs amid the pandemic. Only if we continue to adapt and progress, are we able to facilitate the process of supporting communities and building a caring and compassionate society.

## AGRASAR BACHPAN

We bring out-of-school children to their age-appropriate learning level, mainstream them into formal schools and enhance the quality of education in these schools. We focus on the holistic development of the students, building a strong foundation for life-long learning. The teachers work in close partnership with the parents, to ensure their support in encouraging their children and reinforcing learning at home.

## AGRASAR PRAVASI

In our program for migrant families, we facilitate access to identity documents, opening bank accounts, and availing various social security schemes. In addition, we conduct financial literacy, legal education, and health & hygiene workshops. We also resolve cases related to worker's rights through legal aid & counseling and enhance the employability of youth.

## SOCIETYSMAKER

Our social enterprise initiative skills women from disadvantaged communities in stitching various products, providing them not only with home-based opportunities to generate additional family income but also with life skills trainings.

## KAAGAZ KI KASHTI

Our initiative against corporal punishment works on challenging the social norms that justify physical and mental abuse of children in the name of discipline, works in schools with teachers, parents, and children with the aim to educate and empower them to use alternative non-violent disciplining and teaching methods, and policy enablement and enforcement of laws and regulations banning corporal punishment.

# AGRASAR BACHPAN

## **Mainstreaming Out-of-School Children into Formal Education System**

We run community-based non-formal learning centers where we teach out-of-school children aged 5 to 12 years until they reach age-appropriate levels and mainstream them into formal schools (both Govt. and Private) as well as enhance the quality of education in these schools. The curriculum has been designed by our teachers, using their classroom experience and in line with the NCERT learning indicators. It includes a child-centric approach and focuses on the experiential and play-way method of learning. Additionally, we run a remedial education program for our mainstreamed children to ensure their smooth transition into formal school classrooms. Further, we ensure continuous engagement with parents to keep them motivated to educate their children and ensure their life-long learning.

We **enrolled 310 students** in Agrasar Bachpan in the Sikanderpur and Islampur centres. We have successfully **mainstreamed 96 children** into government and private schools this year.

**ACTIVITY BASED LEARNING**

**PARENTS TEACHERS MEETING**

# AGRASAR BACHPAN

## Our Work in the Past Year

- As the pandemic continued to interrupt regular teaching, we started group solidarity classes. Each class was divided into groups of 6 children, who lived in close proximity to each other. The group would attend online classes together, sharing a mobile phone since every family in the locality does not have a smartphone. When the lockdown was lifted, these groups would also come to the centre one at a time, maintaining all safety protocols, to study and learn for short periods through the day.
- An online Summer Camp was organized during the month of June to keep the students engaged at home. Different activities like creating pictures out of leaves, shapes out of matchsticks, making a phone directory, etc. were given. The parents and siblings of our students also helped out at home.
- During the third wave of Covid-19, an online session was taken on "How to Use the Zoom app" with the parents. Being a new technology for almost all of us, it was important for parents to know the basics so that they can support their children in online learning.
- We organized an eye test camp on the occasion of World Health Day, where 38 parents and 8 children who frequently visit the library had check ups.
- Our students participated enthusiastically in two Raahgiri Days (an initiative to reclaim the streets by closing off a section of the road to cars) - one conducted online with painting, crafts, poetry recitation and one in person in Sikanderpur with Zumba, arts and crafts, badminton, cricket and more.

# AGRASAR BACHPAN

## CHALLENGES AND LESSONS LEARNED

- With the onset of online education, the digital divide became glaring. Several children who would come to our centre to study in pre-Covid times struggled because their parents did not have a smartphone on which they could keep up with online classes, worksheets, etc. For those who could access a smartphone, lack of internet or unstable connections proved difficult.
- Since our students have migrated to Gurugram with their families from various states in India, they often travel back to their native villages for festivals, functions etc. This travel also takes place sometimes during the period when mainstreaming them into schools happens which delays/hinders the process significantly.

## THE YEAR AHEAD

### **Moving forward we plan to:**

- Introduce the aspect of nutrition education into our curriculum. Alongside providing a healthy snack to the students, we will discuss the benefits of a balanced diet and discourage frequent consumption of junk food. We also plan to do a blood test to determine if children have specific deficiencies which can then be corrected with consumption of foods rich in that specific nutrient. We also plan to encourage parents to stay updated with immunizations and regularly deworm the children, by partnering with the Anganwadi centre in Sikanderpur.
- Organize an Annual Function where the children can showcase their extra curricular interests and skills and enable parents to engage and encourage children.

## Gainful and progressive employment for "migrant workers" and basic rights and entitlements for their families

Agrasar Pravasi translates to "progressive migrant" in English and focuses upon facilitating gainful and progressive employment for "migrant workers", as well as basic rights and entitlements for their family members.

The program has three main aspects - Gainful and Progressive Employment, Basic Rights and Entitlements, and Humane and Thriving Working Conditions for workers and their families. The team facilitates access to identity documents, open bank accounts and avail various social security schemes. We also conduct financial literacy and legal education workshops, coordinate health & hygiene camps and resolve cases related to workers rights through legal aid & counseling. We enhance employability of youth by providing pre-placement, placement and post-placement support, training on employability skills on a need basis, education and career counseling.

**COMMUNITY ENGAGEMENT**

*people supported during the year*

*scheme linkages*

## Our work in the past year

- **New Centre in Gurugram in Partnership with Azim Premji Philanthropy Initiatives (APPI)**

We have opened a new Migration Support Centre in the Old Gurgaon region near Khandsa Mandi in partnership with APPI. The majority of the people living there are informal sector workers working as home-based garment workers, daily wage laborers in construction, and domestic help. Many are also employed in the garment manufacturing and automobile spare parts industry. We have been able to facilitate more than a thousand individuals through this centre to access their basic rights and entitlements.

- **eShram Card: Registration of Informal Sector Workers**

The Government of India, for the first time ever, launched a registration portal for informal sector workers. It came in the backdrop of the Supreme Court order in June 2021, in response to a petition on the migrant workers crisis during the national lockdown imposed during the first wave of Covid-19. We have so far facilitated the registration of 853 workers from our communities in the hope that it would socially secure them.

- **New Identity Document in Haryana: Parivar Pehchan Patra (Family ID)**

The Haryana government launched a new identity document, "Parivaar Pehchan Patra", in 2019 to formulate a comprehensive database of people living in Haryana - this included migrant families as well. Initially, we started working on it in July through offline and online mode by setting up camps in collaboration with a Common Service Centre (CSC) and now we are doing it ourselves online and have made 432 Family IDs so far.

# AGRASAR PRAVASI

- **One Nation One Ration Card (ONORC)**

We started the process of acquiring detailed knowledge on ONORC and visited the Ration Office in Mini Secretariat, Gurgaon many times to understand processes and gaps. Over the months, we built robust relationships with 5 ration depots to facilitate easier access for our community members and 400 families have been procuring ration on a regular basis.

- **Increase in Savings of Community Members**

We have been encouraging people to increase their savings through bank accounts and various government schemes by conducting financial literacy workshops and camps. Workshops on "Savings-Budgeting and Banking" have been held with 537 individuals and 886 bank accounts and 104 Sukanya accounts opened so far. We also ensure that people cultivate the habits of saving through consistent follow-ups.

- **Partnerships**

We have established strong partnerships with various government institutions, workers like ASHA workers, Aanganwadi workers, Primary Healthcare Centre of Gandhinagar, and Sub-Centre of Sikanderpur, and with 5 ration depots near our communities. We have a continued long-lasting partnership with India Post Payment Bank, and also developed associations with different CSCs. We have collaborated with other NGOs like Saahas and CAPED for health and hygiene workshops and camps and Gurgaon Ki Awaaz, 107.8 FM for the radio program.

- **Employability and Trainings in partnership with Rio Tinto**

Due to Covid-19 and various restrictions that came with it, we started to organize online training sessions for prospective job seekers from the community. The sessions included various topics such as communication skills, time management, online banking, ESI, EPFO, career development and more. A total of 143 candidates took part in these training sessions and 129 of them were placed in different industries such as NGOs, BPO sector, as delivery persons, etc.

## CHALLENGES & LESSON LEARNED

- **Identification of Ration Depots and Inactive Ration Cards**

After varied and continuous efforts of two to three months, we were able to identify a functioning ration depot that was ready to distribute rations to migrants. The first obstacle was that there is no ration depot in Sikanderpur or Islampur. In Islampur, a ration distributor comes once a month to give rations at the Chaupal; same is the case in Nathupur (nearby village of Sikanderpur). The ration depots distribute ration to migrants after the locals receive them, i.e. only after the 25th of the month, although the situation now is getting a little better. Even when the ration depots were identified, many ration cards are inactive because they haven't been used for a very long time. These can only be activated from the ration card holder's respective village. This also poses a challenge for us as people can't always go to their villages easily.

- Building and Other Construction Workers' Welfare Board (**BoCW**) **Labour Card**

The BoCW Labour Card continues to be a challenge for us. The Haryana BoCW website was dysfunctional for half the year and even though it started operating, construction workers have not been able to get their employment certified from registered contractors. Most of the contractors are unregistered and other government officials like the Patwari are not ready to sign their employment certificates. We plan to talk to more contractors and officials to find a suitable certifier.

Parivar Pehchaan Patra camp in progress in Gandhinagar

Radio program with Gurgaon ki Awaaz, 107.8 FM

# AGRASAR PRAVASI

## THE YEAR AHEAD

- **Scaling Up**

We have laid out end to end processes, developed well grounded mechanisms and a strong Monitoring & Evaluation Framework for the program; and plan to scale up in different migrant dominated communities of Gurgaon such as Sarhol, Rajiv Nagar, Badshahpur, etc.

- **Public Provident Fund**

Since the past year saw a lot of focus and work on savings, we wanted to identify a scheme other than Sukanya Samridhi Yojana, where members could set up an account for their sons as well. We identified Public Provident Fund (PPF) as a viable scheme for our community and intend to open PPF accounts of community members in the coming year.

- **Research and Advocacy**

We plan to move to a stage where we carry out regular research based on the problems identified from the program and further use that information and results to advocate for solutions on an administrative level.

Financial Literacy Workshops

# AGRASAR PRAVASI

## MIGRATION SUPPORT CENTRE (HYDERABAD & BHIWADI)

Agrasar ran two Migration Support Centres (MSC) in Hyderabad and Bhiwadi in collaboration with Odisha Rural Development and Management Society (ORMAS) from June 2020 to May 2021. The Migration Support Centre is a walk-in resource centre for the candidates/participants from Odisha who are trained under DDU-GKY and placed in Hyderabad/Bhiwadi.

MSC offer counseling, access to information in employment-related issues, social security, capacity building, acclimatization, support and targeted services to vulnerable displaced workers.

COUNSELING OF YOUTH AT MIGRATION SUPPORT CENTRE

# AGRASAR PRAVASI

MIGRATION SUPPORT CENTRE (HYDERABAD & BHIWADI)

*youth registered in Migration  
Support Centre, Hyderabad*

*youth registered in Migration  
Support Centre, Bhiwadi*

## Our work in the past year

- 2001 participants linked to aadhar cards in Hyderabad and 546 in Bhiwadi to ensure access to different rights and entitlements.
- 2001 youth provided counseling, acclimatization, and post-placement support in Hyderabad and 664 in Bhiwadi by mediating and resolving issues with different stakeholders.
- Legal Literacy and Financial literacy conducted with 461 participants in Bhiwadi and 1399 youth participated in legal literacy and 1391 youth participated in financial literacy workshop in Hyderabad on savings, insurance, basic rights and entitlements of employees at the workplace, and digital banking.
- 2001 people in MSC, Hyderabad registered with various social security schemes such as PMJJY, PMSJY and Atal Pension Yojana. On the other hand, 664 people registered in these schemes in our MSC in Bhiwadi.
- Ensuring financial inclusion by facilitating opening of bank accounts of the registered youth in both the centres and informing them to use different banking services and facilities.
- The work in both the centres was undertaken during the COVID-19 pandemic, therefore, it became critical to conduct health awareness workshops, routine health checkup and occupational hazard and safety workshops with the youth as many were working in healthcare, hospitality, sales, production and retail sector.

# AGRASAR PRAVASI

## MIGRATION SUPPORT CENTRE (HYDERABAD & BHIWADI)

### CHALLENGES AND LESSONS LEARNED

- Out of the goal of registering 2000 candidates in MSC, Bhiwadi, team was able to register 664 candidates as there were less candidates in Delhi NCR at that point of time. Many mobile numbers were switched off in the data base received from ORMAS.
- The Migration Support Centre started its operation from June 2020 in the midst of COVID-19 pandemic and lockdown. Since counseling and in-person workshops are at the core of our operation model, it became challenging for the team to conduct the workshops and the work inevitably shifted to online mode. Over the period of time, the workshops were conducted in person by maintaining all the safety protocols.

### THE YEAR AHEAD

The Migration Support Centre in Hyderabad and Bhiwadi is temporarily discontinued and will resume after renewal of the contract.

# SOCIETYSMAKER

## Empowering homemakers to become Societymaker

Societymaker aims to support women from disadvantaged backgrounds become more confident, self-reliant, socially and financially capable to earn a livelihood and lead more meaningful personal and professional lives. It is a community-driven brand promoting a melange of traditional and western apparel and handmade home made decor. It focuses on providing home-based work opportunities with flexible hours to work from the centre for non-working women residing in the semi-urban villages of Gurugram. Societymaker builds women's capacity in both technical skills, such as hand-stitching, machine sewing and handcrafting, as well as basic business skills such as costing, quality check and marketing in order to create enterprise acumen and aspiration in women; breaking the socio-cultural barriers by stepping out of their homes and thus creating a sense of empowerment among them in the community.

In addition, we conduct several workshops and capacity-building sessions with the women on subjects like Financial Literacy, Government Schemes, Health & Hygiene etc.

STITCHING TOTE BAGS

**92**

*women trained in our basic and advanced stitching courses.*

**52**

*women were trained in enterprising skills*

## Our work in the past year

- 27 women have been trained in advanced stitching courses this year.
- 42 women have become competent enough to stitch marketable products and earn an average of Rs.1200 per month, either through Societymaker's support or their own home based work.
- We designed and sold customised products for several festivals like crocheted rakhis and gift hampers on Rakshabandhan and gift bags for Diwali which were much appreciated by our customers.
- We conducted trainings on several topics like health and hygiene, gender equality, sales and marketing, waste management in association with Saahas NGO, menstrual hygiene in association with Pinkishe Foundation and many others.
- Runner mats, vegetable bags, crochet accessories and tote bags were our most popular products this year.

# SOCIETYSMAKER

## CHALLENGES AND LESSONS LEARNED

- Maintaining regular and continuous production was difficult since many women from the community returned to their native villages during the pandemic.
- Since there were few women who knew advanced stitching in Sikanderpur, meeting deadlines for multiple bulk orders was also quite challenging.

## THE YEAR AHEAD

In the coming year we plan to:

- Learn how to make two kinds of dupattas - with crochet and kantha work
- Experiment with new designs and patterns in tote bags since our women are well versed in making basic bags now
- Try making earrings as well as bags in crochet

# KAAGAZ KI KASHTI

## Eliminating corporal punishment from the schools of India

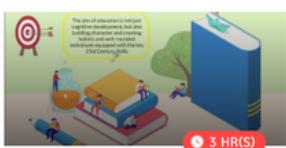

Kaagaz Ki Kashti is Agrasar's initiative to eliminate corporal punishment from the schools of India, launched in November 2017. It pursues three objectives: Cultural and social norm change, i.e. challenging the social norms that justify physical and mental abuse of children in the name of discipline; Behavioural change, i.e. providing teachers and parents with resources to stop the practice of corporal punishment and use non-violent and child-appropriate discipline and child-rearing methods; and Systemic change, i.e. policy enablement and enforcement of laws and regulations banning corporal punishment.

### Agrasar & Gurushala

Agrasar is a social impact organization enabling equitable access to safe and enriching education for children, facilitating gainful and progressive employment for migrant workers, and basic rights and services for their families.

### Courses

21st Century Teachers  
Positive Discipline Techniques

**POSITIVE DISCIPLINE TECHNIQUE COURSE ON GURUSHALA IN PARTNERSHIP WITH PRATHAM EDUCATION FOUNDATION**

# KAAGAZ KI KASHTI

**150**

*children have participated  
in life skill education  
activities*

**12**

*teachers have watched videos and  
audios clips on "How to talk to children  
with compassion"*

## Our work in the past year

- We partnered with Pratham Education Foundation as subject matter experts for creating an online course for teachers on 'Positive Disciplining Techniques' on Gurushala (an online teacher education and professional development platform). The three modules have been uploaded to the platform on topics like - Alternatives to Punishment, Solving Problems Together, Learning Descriptive Praise & Constructive Response. So far, over 800 teachers have enrolled in the course.
- During the various Covid waves, when the whole world moved online, we decided the best way to reach out to the maximum number of parents and teachers was through radio programs. Our sessions in October and November were aired live on "Gurgaon Ki Awaaz - 107.8 FM, Community Radio" on 'How to talk to Children'. The first program shared simple strategies and techniques for talking empathetically with children, listening to them, and ensuring that they grow up as more confident individuals. The second program highlighted the negative impact of putting labels on children and using descriptive praise and constructive response as an alternative to punishment to encourage children. We shared the link to the program with government school teachers and parents in Sikanderpur and Islampur.

# KAAGAZ KI KASHTI

## CHALLENGES & LESSONS LEARNED

- With the onset of Covid 19, we had to shift all our sessions to the online mode, which was difficult and considerably reduced our reach, given a lot of people in the community do not have access to smartphones or stable internet.
- Finding funding for the program continues to be a challenge as not many people see corporal punishment as a critical issue that needs serious attention.
- A small team means we rely mostly on volunteers to carry out our activities and finding and retaining dedicated people is a struggle.

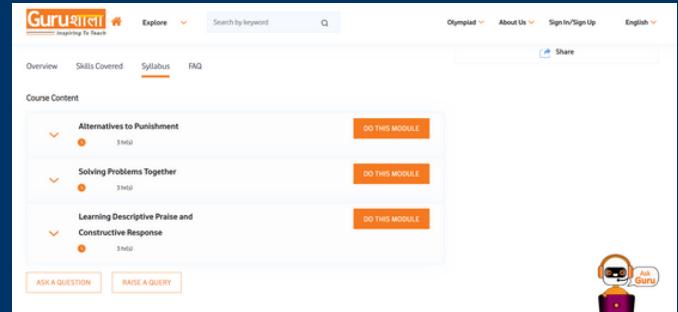

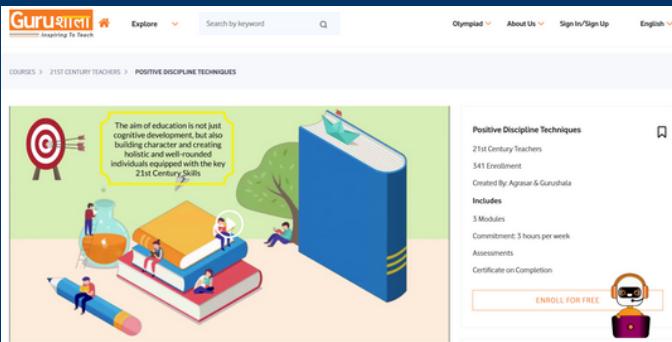

## THE YEAR AHEAD

In the year ahead we plan to:

- Organise more teacher trainings on non-violent methods of teaching and disciplining students.
- Continue imparting life skills sessions to children and ensure the homework solidarity groups function effectively.
- Collaborate with the relevant organisations to develop a standardised protocol to deal with corporal punishment cases that are brought to our notice from across India.

# COVID-19 RELIEF WORK

As Covid 19 continued to rage through India, and the world, causing untold hardship and misery, Agrasar drew on its decade of experience and committed team members to support our community in every way possible.

The team organized vaccination camps in various low-income localities of Gurugram in partnership with hospitals, schools, and other institutions. We also distributed health and hygiene kits and hundreds of bottles of sanitizers. When the oxygen crisis hit Delhi and people were frantically running around to find the life-saving supply for their loved ones, we tried our best to procure and distribute as many cylinders, concentrators and oximeters as we could. The overwhelming need was felt not only in the NCR but other states in India too, and we coordinated transport to UP, Jammu and Kashmir and others. As masks became the first barrier of protection against the virus, the team traveled to various marginalized localities and distributed them.

# COVID-19 RELIEF WORK

**100**

*oximeters shared with  
those in need*

**48,190**

*masks distributed*

## Our work in the past year

- The Agrasar team distributed approximately 2,500 bottles of sanitisers in various localities of Gurugram and Delhi.
- We helped vaccinate a total of 11,490 individuals by organizing 8 camps in Gurugram. We partnered with Medanta and Max Healthcare hospitals as well as Shri Ram School, I Am Gurgaon, Rotary Club, and Goodera for the camps, where our team members and community volunteers helped with registrations, crowd control and smooth facilitation of the process from start to finish.
- 100 oximeters were bought for distribution in the community for early detection of severe cases of Covid. 72 of these were sent to Kashmir, to AASH NGO which alerted us of their need in the state.
- A total of 48,190 masks were distributed to people in 13 localities in Gurugram.
- 913 hygiene kits each with a bottle of sanitizer, hand wash, bath soap, toothbrush, toothpaste, nail cutter and handgloves were given to those most in need to help protect them from the virus.
