Certificate Number: IB067-2500-01-00020

Date of Issue: 26th March 2026

ANNEXURE 1

SCOPE OF WORK

1. Evaluate the effectiveness of the programs.
2. Examine key aspects of project implementation, including processes, outputs, and outcomes, to assess its overall impact.

ASSESSMENT CRITERIA

BlueSky's Accredited Impact Assessment methodology framework, based on ISO 26000: Guidance on Social Responsibility and National Guidelines on Responsible Business (NGRBC, 2018), has been employed to assess the impact of CSR/Social Projects

INSPECTION RATING TABLE

Developing: Projects have low process maturity and are not reaching their intended program goals effectively. These projects may require significant improvements both in terms of how they are being implemented (processes) and their overall impact. The focus should be on strengthening their operational processes and setting clearer, more attainable goals.

Impactful: These projects have a high impact despite lower process maturity. The outcomes are being achieved, and program goals are being met, but the internal processes and operational practices need more development. Such projects could benefit from refining their processes to sustain or enhance their impact.

Proficient: These projects have strong operational processes in place but are not yet achieving their intended program goals. They demonstrate maturity in planning and execution but may need to realign their focus on ensuring that these efforts translate into meaningful impact. The focus should be on adjusting goals or strategies to improve outcomes.

Exemplary: Projects have both high process maturity and are successfully reaching their program goals. These projects represent best practices in both implementation and impact, demonstrating an exemplary model for other projects to follow. The challenge for these projects is to maintain their excellence and look for continuous improvement
